- Sets are played until 15 points with a minimum 2-point lead in a best-of-three format
- Court switch after 5 points in all sets
- Block touch not counting as first hit
- 2 substitutions allowed per set (could be involving different players)

2. Participating Teams

Art. 13

The total number of teams participating in the Main Draw may be 16 or 12 per gender and divided as follows:

Number of Main Draw teams	16	12
Host Country quota Main Draw	Min. 4 Max. 6	Min. 3 Max. 4
Foreign teams max. quota Main Draw (Max. quota direct in Main Draw)	4 (2)	3 (2)
Wild Card teams	2	2
From Qualification Tournament	2	2

In case of not enough registrations for the Main Draw additional teams may be added from the Reserve List irrespectively from the country quotas.

Wild cards are not taken into consideration for the country quotas.

3. Competition structure

Art. 13.2

3.1 Qualification Tournament and Main Draw

Each competition consists of a Qualification Tournament and Main Draw made up of, 24, 16 or 12 teams.

EXCEPTION: The CEV Snow Volleyball European Championships consists only of the Main Draw.

The Host Country teams directly in the Main Draw shall be higher ranked than any other team from the Host Country participating in the event. If two or more teams have the same

amount of points the hosting National Federations decides which team enters the Main Draw.

If the number of Teams registered for a CEV competition exceeds the number of available spots in the Main Draw by at least 4 teams a Qualification Tournament must be played.

4. Competition method

Art. 13.4.

4.1 Main Draw

The CEV Snow Volleyball European Championships is played in a 24 teams Pool Play format followed by Single Elimination.

The Main Draw of the CEV Snow Volleyball European Tour events can be played either in Pool Play, Modified Pool Play or Double Elimination format.

4.2 Qualification Tournament

The Qualification Tournament is played according to the Single Elimination system. A switch to the Double Elimination System may be possible if the number of Teams, time and infrastructure on site permits so.

4.3 Tie in a pool play competition method

Art. 13.4.3

In the case of a tie in the pools (match points) at the end of the round robin, the following rules will apply:

a. Between two teams:

The team with higher rally point ratio in the matches between all teams in the pool is ranked higher.

If a tie still exists, the winner of the head-to-head match is ranked higher.

b. Between three teams:

Teams are ranked (1, 2 & 3) by the rally points ratios in the matches between the three tied teams.

If a tie still exists (1, 1 & 1 or 1, 1 & 3 or 1, 2 & 2) then the teams still tied are ranked by the rally points ratio between all teams in the pool. Especially for pools of 3 teams the final ranking of the top 2 teams qualifying for the next level of the CEV competition will be determined by the result of the match amongst those 2 teams.

If a tie still exists then the teams still tied are determined by the tournament seeding established after the Main Draw Preliminary Inquiry (the highest seed of the tied teams is the top ranked team).

5. Allocation of Teams

Article 13.5.1

All teams entered in an event are distributed between the Main Draw, Qualification Tournament and Reserve List according to their CEV Snow Volleyball Entry Ranking 10 days before the competition. For teams consisting of 4 players only the sum of points from the best 3 players are counting.

6. Seeding

Art. 13.5.2 & 10.1

Once all the participating teams are known and have confirmed their presence during the Preliminary Inquiry, the teams will be seeded in the competition bracket according to their Entry Ranking points on the day of the Preliminary Inquiry. In case of a tie, a drawing of lots will decide. For teams consisting of 4 players only the sum of points from the best 3 players are counting.

If the hosting National Volleyball Federation has no team in the Main Draw among the top, top 6 (24 teams), top 4 (16 teams), top 3 (12 teams) seeded teams, they will be allowed to allocate their best ranked team on place, 6, 4, 3 in order to help the promotion of the competition.

Wild cards will be seeded by CEV depending on the level of the players and other parameters.

7. Wild Cards

Art. 14.1 & 22.2

CEV has the right to grant up to 2 wild cards for the Main Draw per event upon request of National Federations or upon its own initiative. These wild cards can be also given to teams outside of the CEV territory.

The deadline to submit wild card requests for National Federations to the CEV office is 15 days before the event using the SV-02 form.

The allocation of wild card(s) will be communicated with the Confirmed List 10 days before the event.

No wild cards are allocated for the CEV Snow Volleyball European Championships.

When the player is in the Reserve list, the obligation to evidence the medical reason is not needed.

In case of a medical reason or "force majeure" of a player at the CEV or FIVB competition held the week before the CEV competition, the National Federation may withdraw, disband or 'change of athlete' only supported by a medical statement from the official tournament doctor.

10.2 Next eligible team

Art. 13.5.

If a National Federation informs the CEV Supervisor prior to (or during) the Preliminary Inquiry of the Qualification Tournament of a withdrawal from their Qualification Tournament team, the selection of the next eligible team is based on the following priorities:

- a. The next highest ranked team excluded from the Qualification Tournament based on the Entry Ranking Points (10 days prior to the event) is then allowed to enter into the Qualification Tournament, if the team attends the Preliminary Inquiry prior to the Qualification Tournament.
- b. In case there are no eligible Reserve teams physically present at the Preliminary Inquiry of the Qualification Tournament, Reserve teams may be picked up to fill the roster regardless the country quota regulations.

The following policy must apply in order to clarify the withdrawal process of Main Draw teams (and their consequent replacement):

- a. If a National Federation informs the CEV Supervisor prior to (or during) the Preliminary Inquiry of the Qualification Tournament of a withdrawal from their Main Draw team, the next highest ranked eligible team based on the CEV Entry Ranking points (10 days prior to the event) is then allowed to enter directly into the Main Draw.
- b. If a National Federation informs the CEV Supervisor after the end of the Qualification Tournament Preliminary Inquiry and before the commencement of the Main Draw of a withdrawal from their Main Draw team, the extra team will then be allowed to qualify from the Qualification Tournament.
- c. The extra team is the team with the highest current CEV Entry Ranking among the teams failing to qualify for the Main Draw by losing the last round of the Qualification Tournament, if the team attends the Preliminary Inquiry of the Main Draw. In this case, the CEV Supervisor must draw between the two highest ranked teams amongst the losers. For each additional open spot from the Qualification Tournament to the Main Draw, the next highest ranked team must then be drawn against the loser of the previous draw.
- d. Replacement procedure for the Host Country athlete/team:
 - If a National Federation informs the CEV Supervisor prior to (or during) the Qualification Tournament Preliminary Inquiry, the new team is placed in the Main Draw/Qualification Tournament according to the rule that the highest ranked teams as of 10 days before the event of the host NF are placed in the Main Draw.
 - If a National Federation informs the CEV Supervisor after the end of the Qualification Tournament Preliminary Inquiry and before the commencement of the Main Draw, the new team retains the spot in the Main Draw.

EXCEPTION: For the CEV Snow European Championships the withdrawal procedure is as follows:

- a. In case of a withdrawal of a team, the next team on the Reserve List (considering country quota limitations) will be eligible to enter in the Main Draw in the vacant position in the pool.

- b. In case of the replacement of an athlete the new team's CEV Entry Ranking points as of the day of the confirmed list are taken into consideration for the new team's entry. The new team is then placed into the Main Draw or Reserve List.
- In case the team remains in the Main Draw the position in the pool will be maintained.
 - In case the team moves to the Reserve List the next team on the Reserve List (considering country quota limitations) will be eligible to enter in the Main Draw in the vacant position in the pool.
 - In case the next eligible team from the Reserve List is already represented, the team will be added in the pool with the vacant position regardless of the number of same NFs in the pool(s).

No changes will be made in the team roster and in the team seeding if Main Draw team(s) inform(s) the CEV between the end of the Preliminary Inquiry of the Qualification Tournament and the start of the Qualification Tournament of their withdrawal from the event.

The Qualification Tournament and Main Draw are deemed to have started once the seeding has been confirmed after the Preliminary Inquiry and no further changes will be allowed.

The athlete is responsible to request from his/her National Federation (or to consult the CEV website under the "Practical Info" section of each Snow Volleyball event) in order to obtain details on the time and place of the Preliminary Inquiry and all other relevant information for the event.

11. Substitution of an Athlete

Art. 20.4.

After the replacement of an athlete or adding an additional athlete if the Team previously composed only by 3 athletes, the new team's CEV Entry Ranking points as of 10 days before the event are taken into consideration for the new team's entry, independent of the date of the replacement. The new team is then placed into the Main Draw, Qualification Tournament or Reserve List.

In case of replacements or adding an additional athlete occurs after the publishing of the Confirmed List, it is not possible to move from the Reserve List up to the Qualification Tournament or from the Qualification Tournament up to the Main Draw unless the roster is not complete or more spots become available.

Should the replacement occur after the Qualification Tournament Preliminary Inquiry and the new team does not have enough CEV Entry Ranking points to enter the Main Draw the new team will not be allowed to participate and an additional team enters the Main Draw from the Qualification Tournament according to the procedure described above.

The submission of evidence regarding medical reasons and Force Majeure is done as for the withdrawal of a player.
